◆ Toolkit

AI & PROTOTYPING

Figma Make, Claude Code, Cursor, vO,
Antigravity, Lovable.dev

DESIGN & WIREFRAMING

Figma, Framer, FigJam, Balsamiq

SYSTEMS

Design tokens, component libraries, auto-layout,
spacing systems, responsive grids

PROCESS

User journey mapping, information architecture,
A/B testing, design documentation

◆ Education

M.Tech — Manufacturing Science & Engineering

Bangalore Institute of Technology
2016 – 2018

B.E. — Mechanical Engineering

Malnad College of Engineering
2011 – 2015

◆ Certifications

Diploma in UX / UI Design

Edit Institute
Jul 2022

Google UX Design Professional Certificate

Coursera
Jun 2022

◆ About

Senior designer with a mechanical engineering background, bridging product strategy and hands-on craft. I move from raw idea to working prototype fast using AI tools, and I specialise in untangling complex enterprise problems into interfaces people can actually use.

◆ Experience

BlueTree — Bengaluru

Nov 2023 – Present · 2 yrs 8 mos

Senior UI/UX Designer · CEO's Office

Jul 2025 – Present

- ◆ Partner directly with the CEO, product heads, and engineering leads to shape what gets built: early sketches, fast AI-assisted prototypes (Antigravity, Claude Code), and validating ideas before engineering begins.
- ◆ Conceived, designed, and launched BlueTree's new company website — and continue to evolve it through ongoing redesigns to keep brand and messaging current.
- ◆ Own all exec-level design: pitch decks, investor materials, and customer-facing assets.
- ◆ Set design direction across teams, document the system, and keep product and brand consistent.

Payroll & Billing Module *Figma · design tokens*

Designed multi-tier approval flows, payrun creation, compensation reports, and tax handling.

Outcome: targeted 20–30% faster payrun close cycle; report generation success rate >99%.

Employee Data Management *Figma · tab-fieldset architecture*

Profile UX for ~150 configurable fields, with role-based access and drag-and-drop documents.

Outcome: ~20% complexity reduction and ~15–20% faster profile completion.

BeeForce Assistant *AI-Enabled Assistant · mobile-first*

AI-powered conversational assistant for contract workers — handling onboarding, attendance, and payout queries.

Outcome: targeted 30% adoption and fewer support escalations.

UI/UX Designer

Nov 2023 – Jul 2025

- ◆ Designed interfaces for workforce management and billing platforms from the ground up.
- ◆ Built the early design patterns and components that later grew into the full design system.

Ritual Softech — UI/UX Designer

Jun 2022 – Oct 2023 · 1 yr 5 mos

Sole designer at a fast-paced agency, across web and mobile projects.

- ◆ Took client projects from wireframes to high-fidelity, iterating quickly on feedback.
- ◆ A/B tested layouts and interactions, and handled dev handoff to keep builds on-design.

Govt. Polytechnic — Lecturer, Mechanical Engineering

2018 – 2021

Udupi & Karkala

- ◆ Taught mechanical engineering before transitioning into design — where structured thinking and clear communication carried over.
